

box cars and one-eyed jacks

Hello from Box Cars! We have some exciting announcements.

As promised, Box Cars is now offering live Zoom professional development webinars! In these webinars, Jane or John will go into greater depth than in our free youtube videos. They will take questions from participants, show student samples, discuss differentiation/journaling ideas, and share tips for working with parents and students at home. These sessions will use regular cards and regular dice - materials many of you already have on hand.

Please visit our new [WEBINARS](#) page to browse the sessions on offer. To register, select the webinar session you are interested in, then select the date and time that works for you and add it to your cart. (We will be adding more session and date options over the next few weeks). Next, check out as you would any online purchase. After you make your purchase, you will be prompted to download the accompanying pdf handout for the session. This pdf handout will have the login information you will need for Zoom on the cover page. Do not hesitate to reach out to us if you have any issues with registration! This is new territory for us all and we are doing our best to resolve any issues as they arise.

Note that we will continue to provide free content for you and your families to use. For this week's games, please click the links below!
