Box Cars & One-Eyed Jacks inc

Multiplication Tic Tac Toe

- ▶ Player one rolls 2 x 0-9 or 2 x 1-12 dice and finds the product (eg $4 \times 6 = 24$; $6 \times 4 = 24$)
- ▶ Cover spaces with bingo chips (one space only would be covered if doubles are rolled)
- ▶ Player Two takes their turn. Players continue to alternate turns
- ▶ Build Tic Tac Toe, three or more in a row horizontally, vertically or diagonally
- ▶ One point per chip and remove from board so spaces are open again
- ▶ Roll your partner's space and capture for 2 points per chip
- ▶ Play for a set period of time
